MILWAUKEE DAILY SENTINEL.

THE DAILY SENTINEL.

THURSDAY MORNING, APRIL 15.

The News.

It will be seen by our Washington news this morning, that the administration party are still hopeful of swindling the Lecompton fraud through Congress by hook or by crook. A message from the Senate was sent to the House yesterday, asking for a Committee of Conference, when a motion to insist on maintaining its disagreement was lost by a tie vote, Speaker Orr, voting in the negative. The proposition for a Committee of Conference was then *agreed* to, Yeas 108, Nays 108, and Speaker Orr giving the casting vote in the affirmative. The Lecomptonites are sanguine of success upon a joint swindling arrangement.—We shall see.

The President has decided to take the volunteer regiments from the Western States. A memorial from the Legislature of Utah, setting forth their grievances, was presented to the Senate and laid on the table.

The proceedings of our Legislature will be found in another column.

A fire occurred at Cincinnati, on Tuesday night, and destroyed $35,000 worth of property.

The proceedings of the new Common Council, yesterday afternoon and evening, which will be found elsewhere, are of considerable interest to our city readers.

An improvement is reported in the New York produce market of yesterday. Our home market was dull, and prices of wheat lower.

The weather, yesterday, was cloudy, though appearances were favorable for a clearing up.

Election of City Officers.

The Common Council, last evening, completed the election of City Officers for the ensuing year. The proceedings will be found elsewhere. The selections are, in the main, very good ones, and the vote on nearly all of them was very decisive.

The Mayor submitted his nominations for Acting Street Commissioner (DANIEL SCHULTZ,) Assessors (C. W. SCHWARTZBURG, S. H. MARTIN and JAS. JOHNSON) and Chief of Police (W. W. BROWN.) The last named was rejected and the others confirmed.

Meeting of the Milwaukee Bar.

Pursuant to a notice previously given, a large number of gentlemen of the legal profession, met at the Court House, on Tuesday evening. J. E. ARNOLD, President of the old bar organization, took the chair, and Mr. M. H. FINCH was called to act as Secretary.

The President invited Judge CROSS to state the object proposed in calling the meeting, who said that the notice was issued after consultation with many gentlemen, especially the younger members of the Bar. The feeling was quite general that our intercourse with each other was not sufficiently frequent and familiar. Many gentleman had come to this city, who had been members of the Bar in other States, and accustomed to more free and genial intercourse.—There ought to be more organization to bring gentlemen together, and to effect this, was one object purposed in calling the meeting. Another was to consider the propriety of establishing a uniform fee bill, which was much needed, so that the general system of charges throughout the city might be uniform.

Mr. Emmons suggested that the President, Mr. Arnold, who was of longer standing at the Bar than any other gentleman present, should give the meeting such reminiscences as might occur to him, of the earlier organization of the Bar. Mr. Arnold accordingly gave an interesting sketch of the history of the former social and fraternal organization of the Milwaukee Bar.

Mr. Cross moved that a Committee be appointed, of which the President should be chairman, for the purpose of preparing and reporting at some subsequent meeting, a plan of permanent organization. The motion was agreed to, and the Committee constituted as follows, viz:—Messrs. Arnold, Cross, Emmons, Mallory and Woodward.

Mr. Lakin offered a resolution that a Committee should be appointed to prepare and report a uniform fee bill. The resolution was adopted and Messrs. Lakin, Lynde, Ryan, Hamilton, and Gridley, were constituted the Committee.

Mr. Palmer being called upon by the Chair stated that several gentlemen had, upon their own responsibility, prepared a bill, asking to be incorporated as a stock association, with power to issue stock, and hold real estate, for the purpose of establishing a law library in Milwaukee. He thought the object a very desirable one, and hoped that a library would be established in Milwaukee, which should be as good or better than the State library at Madison.

Mr. Emmons feared that Gov. Randall would veto such a bill, on account of his well known objections to special, and local legislation.

The President and other gentlemen stated their strong conviction that the Governor would highly favor such a bill, and that he would waive his objection to local legislation in favor of it, as the end proposed could not well be obtained by any general law on the Statute book.

Mr. H. L. Palmer offered a resolution that —— be a committee to prepare a memorial to Congress, praying that a new judicial circuit should be organized to include Wisconsin, Iowa and Minnesota, and that such committee be authorized to correspond with gentlemen abroad with reference to the subject.

Mr. Palmer observed that he thought the time had fully come for the establishment of such a Circuit. He would not be thought, however, by offering this resolution, to express any feeling derogatory or disrespectful to the United States District Judge, for whom he had a high respect. Indeed he thought the movement would receive his full approbation.

After a few remarks from the chair, approving of the resolution, it was unanimously adopted.

The blank was filled by a motion, that the Committee should consist of five, and the following gentlemen were appointed to constitute it; Messrs. H. L. Palmer, W. P. Lynde, J. H. Van Dyke, A. R. R. Butler and J. B. D. Cogswell.

And the following gentlemen were selected as a Committee to go to Madison, and present to the Legislature the merits of the bill, to incorporate an association for the establishment of a Law Library: Messrs. Nelson Cross, N. J. Emmons, F. Bloodgood, J. Downer and O. H. Waldo.

It was moved that this meeting adjourn to the first Tuesday in May, and the motion was carried, after the expression on the part of the President and others, of an earnest hope that the meeting would be attended, even more unanimously than the present.

Effects of the Late Gale.

Appearance of the Beach—The Harbor and the River—The Bay yesterday morning.

Yesterday we devoted an hour so, to ascertain as nearly as possible, what damage had been done by the "North Easter" of Sunday and Monday, about the beach and the Harbor. The principle damage done is about the old harbor, and the island upon which Capt. Jones' ship yard is situated. Beginning at the east end of Wisconsin Street, we went down along the beach to the new Harbor. The lake was comparatively quiet, and we suffered little inconvenience in walking along the shore over which, two days previous, the angry breakers swept in tempestuous rage. Early yesterday morning nearly all the vessels that had laid up during the storm, put out on their voyages, and at the time we walked down the beach, every side we cast our eyes, the bay was dotted with spreading sails. We counted no less than twenty vessels, most of which were wending their course in a northerly direction. Quite a number left our own harbor, and were towed out into the bay by the tugs *Decatur* and *Tift*. In returning, the tugs had several spirited races for the river, as there was a number of vessels waiting to be towed out.—The *Decatur* is a little the faster, and she generally got in ahead, though sometimes the race was close. But to the beach again.—We found that considerable of the embankment between Wisconsin and Huron streets had been undermined by the waves, and large portions had fallen down and been washed away. Within the past few months the lake has encroached considerably upon the boundary of the 3d ward, and unless some protection work is provided, it will probably do serious damage to property along the beach in this vicinity. It has already done considerable mischief about the foot of Huron street.

For the distance of several rods the street is entirely washed away, and the foundation of the Lake Brewery and the Eastern Hotel, are exposed to the beating of the waves when there is anything of a northern, or easterly wind. South of Huron street the beach is low, and completely covered with shanties. There are probably not less than four hundred of them between that and the new Harbor, all occupied by the poorer classes of laboring men, and a good many of them by fishermen. The shanties here are really as thick as they can stand, and they are built without the slightest regard to regularity or style.—For example, the rear of one was directly in front of another, while two more front upon each end of it. Most of them consist of but one apartment of about 15 by 20 feet in size, while some are larger, and have more the appearance of neatness and comfort. Scenes of squalid wretchedness and misery are abundant here, indeed.—The poor people suffered greatly during the late storm. The waves dashed with terrible fury over the beach, completely inundating the whole lower part of the 3d Ward, and making desperate havoc amongst the shanties on the shore. Some of them were firmly rooted in the sand on the brink of the Lake, and the sea dashed over the roofs of these, breaking into many of them, and completely drenching the unfortunate inmates. Others, however, withstood the storm and the waves without the slightest injury, as they were water-proof, and so deeply implanted in the sand that they could not well be moved.

Between the Gas Works and the beach, the 3d Ward, is now a perfect bay, and something ought to be speedily done to remove this water before it becomes stagnant, else it will not be conductive to the health of the city. In time, too, some protection work must be constructed on this part of the beach, in order to avoid these inundations.

The new Harbor, the Straight Cut, appears to have sustained no injury whatever from the gale. We noticed yesterday morning that one of Capt. Simms' dredge boats had commenced "scooping out" the channel, in the new Harbor, and it will very shortly be of a sufficient depth to admit the passage in and out of the largest sized vessels, however heavily they may be laden. A new light house or beacon, is being erected on the north pier of the Straight Cut, which will very soon be completed and provided with a proper light. It is a wooden building, not over and above substantial, but it will probably answer the purpose very well for the present. A walk is also being constructed out to it on the pier. It is no easy matter to get out there now, while there is a high sea, as the waves dash over the pier; and without anything to hold upon, one would stand a good chance to get washed off.

On the island below the Straight Cut, considerable damage was done by the gale. The sea broke over it, and washed away a large portion of it. It was almost completely under water for two days, and Capt. Jones must have sustained very serious losses thereby. We could not well get upon the island, so that we cannot tell precisely what damage has been done there. The Government or old Harbor suffered considerably. Large portions of the piers are carried away, and as it is at present, it must be about useless.

ARRESTED FOR PASSING BAD MONEY.—A young man named Samuel H. Morse, was brought before Justice Walworth on a charge of passing a bad dollar bill, and having more of the same description in his possession. The case was adjourned to the 20th, and the defendant recognized in the sum of $500 for his appearance.—Morse, it appears, is a resident of Racine, of good standing, we are assured, and he has lived there some 10 or 12 years. He came through this city several days since, and while here he had occasion to hire a carriage for which he paid one dollar, giving the driver a $5 bill, who returned the driver $4 in good money. The driver afterwards discovered that the $5 bill which he had received was a bogus one. He informed the Police as to when and where he had received it. A Policeman was sent to Racine, who returned yesterday with the accused under arrest. The father-in-law of Morse, a well known citizen of Racine, has become security for his son-in-law. Morse declares that he was ignorant of the bill being bad one. He gave the name of a bank where he had received it, and said that he had paid out more of it, and that he had no other money in his possession. It is probable that Morse had no intention to defraud anybody, and we trust that such may be the case.

RAIL ROAD STATION INDICATOR.—A patent numbered 19,880, has just been issued by CHAS. J. SMITH, of North Prairie, in this State, for his Rail Road Station Indicator; a very ingenious contrivance which we noticed when it was first tried by Mr. S., last fall, on the M. & M. R. R. The patent runs for 14 years from the 6th of February next. Mr. SMITH hopes to have the "Indicator" in operation on all our Wisconsin Rail Roads, in a very short time. His address is "North Prairie, Waukesha County, Wisconsin."

POLICE COURT YESTERDAY.—William Clark and John Castello, were fined $3 each, the former for being intoxicated and the latter disorderly.

William Armstrong was fined $10, and Peter Jennings $5, for being disorderly.

Samuel H. Morse was brought up on a charge of having obtained $4 under false pretences from A. L. Boynton. Case adjourned to April 20th for examination, and defendant recognized in the sum of $500 for his appearance.

MAIL ARRANGEMENTS.—Hereafter the mail for the West, on the Milwaukee & Mississippi R. R., will close at 10 a. m., and 4 p. m.; arrive at 8:30 a. m., and 6:20 p. m.

The New Council.

Both boards of the Common Council met in joint convention, yesterday afternoon, pursuant to the call of the Mayor.

The Mayor called the Council to order and directed the Clerk to call the roll, first of the Aldermen, then of the Councillors. All of the Aldermen and Councillors elect were present, except Mr. HADLEY, who is absent from the City.

The Mayor then stated that the Boards had been called together to appoint the different City Officers. He deemed it proper, however, that the salaries should first be fixed, before the appointments were made. This could only be done by the two Boards in separate session.

Mr. BOND moved that the Joint Convention adjourn till Tuesday evening, to make the appointments.

Mr. MCCORMICK moved to amend by adjourning to Friday evening next.

Mr. HUMANN objected to the adjournment.—He was for making the appointments now, and fixing the salaries afterwards.

Mr. WALTERS was also in favor of making the appointments without further delay. As to the salaries, he was in favor of using the strictest economy; and if the officers elected would not serve for the salaries hereafter established, they could resign, and plenty would be found to take their places.

Mr. WALDO thought that it would be better to fix the salaries first. Members would vote more freely, if that course were followed. But he did not like to adjourn for so long a period as was proposed. Why could not the necessary Ordinance be passed, and the Boards be prepared to act to-morrow?

Mr. MCCORMICK was in favor of adjourning till Tuesday next, if we adjourned at all. He had come prepared to make the appointments to-day.

Mr. WALTERS had dressed himself on purpose to attend the meeting to-day, and do up the business, and he did not like to be disappointed.—He thought, with the gentleman from the Seventh, that the two Boards might adjourn for an hour, or so, consult separately, pass the ordinance, and then meet in Joint Convention, this evening, or to-morrow morning, to finish the business.

The motion to adjourn till Tuesday, was rejected. Yes, 4, nays 22.

Mr. MCCORMICK now moved to adjourn till 7 o'clock this evening.

Mr. BOND accepted the amendment.

Mr. HUMANN proposed 5 P. M.

The motion to adjourn till 7 P. M. was then put by the chair, and carried.

The Joint Convention, having adjourned, the Mayor called together the BOARD OF COUNCILLORS. The roll was called, and all answered to their names, except Mr. Hadley.

Mr. LAPHAM offered a resolution, setting forth the object of the meeting of the two Boards on the same day, fixing salaries and making appointments, as constituting a necessity, under the Charter, for such proceeding—which was adopted, *nem con.*

Mr. WALDO introduced an Ordinance, to fix the salaries of the different City Officers, excepting Assessors, Surveyor and the several Deputies. Mr. W. remarked, that these could be added, if it was thought best; though there was not the same necessity for immediate action, in these cases, as in the others.

The Ordinance having been read, the Board proceeded to consider the same, item by item.

Mr. MCCORMICK moved to fix the salary of the Clerk, including all Clerk hire &c., at $2,000 (the maximum named in the Charter.)

Mr. WALDO made a very earnest appeal to the Board upon the urgent necessity of practising the strictest economy in all matters of city expenditures. It was idle to talk of low taxes, if this was not done. The time to economize was when we were agreeing to pay, not when we were raising means to meet obligations already assumed. He had fixed, in his own mind, upon $1,500, or $1,600, as a sum sufficient to compensate the Clerk fairly for his services—which was within the Charter limit. He moved to amend, therefore, by inserting $1,500. The amendment was adopted.

Mr. WALTERS moved to fix the salary of City Attorney at $800.

Mr. WALDO wished that some other person than a lawyer would speak to this question. He was really of opinion that the salary named for the City Attorney was very low. The proper rule was to adopt, as nearly as might be, the current market price for the services demanded. Now, we could not secure such services as the office of Attorney required for $800. This was his view, and he submitted it to the consideration of the Council.

Mr. WALTERS would be willing to pay the City Attorney $1600, if he would guarantee to defend all suits in which the city was a party, without the help of additional counsel.

Mr. MCCORMICK moved to increase the sum to $1200, and Mr. HAYDEN to $1500. The last amendment was rejected—Yeas 7, Nays 10.

The sum of $1200 was then adopted, and the motion, as amended, agreed to—Yeas 14, Nays three.

Mr. TESCH moved to fix the salary of Comptroller at $1500, and Ald. MCCORMICK proposed $2,000.

The motion of Mr. TESCH was adopted—Yeas 16, Nays 2.

Mr. MCCORMICK moved to fix the salary of Police Justice at $1500. Mr. BUENING moved $2,000. Lost, Yeas 6, Nays 11.

Mr. WALDO raised the question whether the Board could alter the salary, as fixed a year ago when the present Police Justice was elected for two years.

Mr. LAPHAM moved to strike out that portion of the ordinance relating to Police Justice. Carried.

The salaries of the remaining City officers were then fixed, after some discussion, at the following rates:

Acting Street Commissioner,	$1200
Associate Commissioners,	500
Chief of Police,	1200
Three Detectives,	500
Other Policemen,	400

The ordinance, so fixing the salaries, was then *passed*.

The Board of Councillors then adjourned till 6 P. M.

The BOARD OF ALDERMEN were immediately called to order by the Mayor. Roll called and all present.

The Ordinance, relative to salaries, &c., passed by the Board of Councillors, was then read by the Clerk.

Ald. KEOUGH moved to amend by increasing the salary of the Clerk to $2,000.

Ald. PLANKINTON moved $1,800.

Ald. DAGGETT thought that if we commenced amending the Ordinance in this way, it would take us two, or three days, to get through. He thought the sum fixed was quite high enough. One smart man could do all the work of the City Clerk and have leisure at that.

The motion of Ald. KEOUGH was *lost*.

Yeas.—Carroll, De Vos, Keough—3.

Noes.—Dousman, Daggett, Lindwurm, Phelps, Neiderman, Plankinton—6.

Ald. PHELPS thought the salary provided sufficient, and hoped the Aldermen would concur with the Councillors.

The motion to increase the salary to $1,800 was next put and lost—Yeas 3, Nays 6.

Ald. PLANKINTON moved to increase the salary of the three Detective Policemen to $800; contending that the right sort of men could not be had for a less sum.

Ald. PHELPS was of opinion that the salary of the Chief of Police should also be increased to at least $1,800.

The amendment of Ald. PLANKINTON was lost. No further amendments being offered, the ordinance was read a third time, and passed. Yeas, 8, nay, 1.

The Aldermen then adjourned.

EVENING SESSION—ELECTION OF CITY OFFICERS.

At 7½ o'clock the two Boards again met in joint Convention, Mayor PRENTISS in the chair. Roll called, and all present but Mr. Hadley.

Mr. MCCORMICK moved that the Council proceed to elect a City Clerk—Carried.

The vote was taken *viva voce*, as follows:

For ROBERT B. LYNCH—Aldermen Carroll, De Vos, Keough, Lindwurm, Niederman—5. Councillors Busack, Buening, Conrad, Humann, Heineman, Kroeger, Laubenheimer, McCormick, McGrath, Schulte, Vogel, Walters—13—in all 17.

For R. H. HEWIT—Aldermen Dousman, Daggett, Phelps, and Councillors Hayden and Tesch—5.

For J. COLGATE—Ald. Plankinton, Councillor Bond—2.

For A. A. Bettles—Councillor Lapham—1.

For R. MENZIES—Councillor Waldo—1.

ROBERT B. LYNCH having received a majority of all the votes given, was declared by the chair duly elected clerk for the ensuing year.

Ald. Dousman moved to proceed to the election of City Surveyor—carried.

FREDERICK SCHUMACHER received 23 votes, Mr. Mix 1, Mr. MARSHALL 1, and Mr. BLODGETT one.

Mr. SCHUMACHER having received a majority of all the votes cast was declared duly elected.

Mr. HUMANN moved to proceed to the election of a Wood Inspector.

Mr. WALDO thought that it might be well to defer action till the Board decided whether, or not, the office of Wood Inspector should be abolished. He should therefore vote against the motion to elect now.

The motion of Mr. HUMANN, to elect a Wood Inspector now, was then put and *lost*.

CHRISTIAN MEYER was next elected Sealer of Weights and Measures, receiving 20 votes, to 2 for Southwell, 2 for Crane, 1 for Hayden and 1 for McCormick.

Mr. WALDO moved to proceed to the election of School Commissioners. Carried.

The following Commissioners were then appointed:

1st *Ward*—HENRY RUNKLE, 23 votes to 3 for J. Riley.

2d *Ward*—A. J. LANGWORTHY, 16 votes to 10 for J. Bes.

3d *Ward*,—EDWARD O'NEIL, 20 votes to 6 for J. Scollin.

4th *Ward*—S. C. WEST, 15 votes to 11 for J. V. Plato.

5th *Ward*—EDWIN DEWOLF, no opposition.

6th *Ward*—CICERO COMSTOCK, 22 votes to 4 for B. Church.

7th *Ward*—RUFUS KING, 22 votes to 3 for L. Palmer.

8th *Ward*—GEO. BINGHAM, 16 votes to 10 for Burnham.

9th *Ward*—HENRY HILMANTCH, 21 votes to 5 for Ziegler.

Some discussion arose as to whether Alderman DeVos, could hold the office of School Commissioner for the Ninth Ward.

The Mayor ruled that the acceptance, by Mr. DeVos, of the office of Alderman, vacated his office on School Commissioner.

On motion of Mr. LAPHAM, the Convention proceeded to elect another School Commissioner for the Ninth Ward, *vice* Alderman DeVos.

Mr. D. J. DOOMINK received 18 votes and Mr. J. H. LIPPERT 8, thereupon the former was declared elected.

GEO. BURNHAM was then chosen School Commissioner for the Eighth Ward, *vice* Councillor HAYDEN.

A. C. BERGELD was chosen Commissioner of Survey, in the Ninth Ward, in place of Councillor Humann. Some other nominations being proposed for Commissioners of Surveys, Mr. WALDO moved to postpone indefinitely, on the ground that this office was, in fact, extinct.

The motion to postpone indefinitely prevailed.

The election of officers having been completed, the Mayor submitted his nominations.

The first was that of DANIEL SCHULTZ, as Acting Street Commissioner.

The Council *confirmed* the nomination by yeas 24, nays 2, (Alds. CARROLL and KEOUGH.)

The following are nominated as Assessors:

C. W. SCHWARTZBURG, 7th Ward.

S. H. MARTIN, 5th Ward.

JAS. JOHNSON, 7th Ward.

The nomination of Mr. SCHWARTZBURG, was confirmed by 15 yeas to 11 nays.

The nomination of Mr. MARTIN was confirmed by 14 yeas to 12 nays.

The nomination of Dr. JOHNSON was confirmed by 16 yeas to 10 nays.

The Mayor next submitted the name of W. W. BROWN, as Chief of Police.

The nomination of Mr. BROWN was rejected by 21 nays to 5 yeas.

The names of WILLIAM BECK, L. J. LOOMIS and F. KESSLER were proposed, by different members, for Chief of Police.

The Mayor stated that it was his duty to nominate and that of the Council to confirm, or reject. He should be prepared to submit another name for Chief of Police, at the proper time.

On motion of Ald. PLANKINTON, the Council then adjourned till Monday evening next at 7 o'clock.

A CLOSE FIT.—In the House of Representatives, yesterday, the Senate proposition for a Committee on Conference on the Lecompton swindle, was carried by the *casting vote* of the Speaker. We do not believe, for all that, that the villainy can be successful. And even if Congress yields to Executive dictation, the people of Kansas will *not* yield. The Lecompton yoke will never be fastened upon FREE KANSAS.

"RETRENCHMENT," IN EARNEST.—The new Common Council, at its first business meeting yesterday, gave signal proof of its determination to retrench largely in the City Expenditures.—The salaries of the new City Officers, as fixed by the new Board, are less by *one-half* than they were last year. The aggregate of salaries paid last year was $30,500; this year it will be only $15,700; and if the Police force is reduced the aggregate will be less than $13,000.

Money Matters in New York—Saturday

From the New York Evening Post.

The week closes upon more striking exhibitions of an abundant ease in the money market, and a keener competition on the part of lenders, than has been experienced during a term of years. The banks have now become the strongest buyers in the open market, and 6 per cent. is now known as the bank rate. The principal note brokers are completely cleaned out of first class paper. A single namod dry goods note, at 6 per cent. per annum, is now a common transaction. The call loans that were put out at 5 per cent. are now renewed in many cases at 4 per cent.

There has been a shade livelier movement in some departments of trade consequent upon an increased demand for consumption, the resumption of inland navigation, cheapening the work of transportation. This has enlarged the issue of business obligations, but the increase of capital meeting it is greater in proportion.

The favorable tenor of the foreign news, and the non-appearance of the slightest disturbing local influence, enabled the bull operators, on the Stock Exchange, to carry prices up 1a2 per cent, on nearly all the leading fancies. The bears, however, evince much courage and put out large lines. The market at the close continued strong, and the closing figures are since sustained. The total par values, it will be seen, reach nearly two millions, the largest business for the past fortnight.

Well Done Ripon!

RIPON, April 13, 1858.

MESSRS. EDITORS:—I think the results of our Spring election worth a Metropolitan notice.—Our local sheet has not done the subject justice. In the City of Ripon—first election under the charter—the Republicans elected everything, both on the general and ward tickets; our candidates, in fact, averaging greater *majorities*, than the Democratic candidates did *votes*. But in the town of Ripon—outside the city—the work was still more thoroughly done than in the city. The vote was very light (139) there being no chance for a political contest, but its quality was most singular: there was not a solitary Democratic ticket in the box. Every one was Republican and for the Republican flag. Will that do?

CAMPHENE HOMICIDES FOR 1857.—E. Meriam, the curious man who lives at Brooklyn Heights, and keeps a record of everything that occurs, says that fifty-nine persons were killed and seventy-nine persons injured—six of whom were not expected to recover—by fire, resulting in the use of camphene and other burning fluids of a kindred preparation, during the past year. As to the loss of property resulting from fires caused by camphene, Mr. Meriam puts the figures at $125,176, which are probably too low.—*Ex.*

KEROSENE OIL is not explosive, gives more light, and is cheaper than any three burning fluids or gas. It gives a light of six candles, at a cost of half a cent per hour.

For sale by J. P. & F. S. ILSLEY, 141 East Water street.

VALUABLE PAINTINGS.—There are some very large and beautiful paintings on exhibition, at the Jewelry store of Jones & Baker, below Caleb Wall's, which are to be sold at Auction this evening. They are elegantly framed, and valued at $100 each, a chance for a bargain!

LIBERTY HOSE CO. NO. 2.—The adjourned meeting of Liberty Hose Co., No. 2 will be held at the house, Engine Co., No. 6, this evening (Tuesday), at 7½ o'clock. All members are requested to attend promptly.

WASHINGTON, April 14.

SENATE.—The Vice President presented a memorial from the Legislature of Utah, setting forth their grievances. It is semi-deficient in style.—Laid on the table by 32 to 13.

Mr. Gwin presented a resolution from the Legislature of California, asking for the admission of Kansas under the Lecompton Constitution.

Mr. Broderick took occasion to say that the resolutions did not express the sentiments of the people of California.

The resolutions were referred to the House.

Mr. Green's Pacific Railroad Bill was taken up, and after discussion, without coming to any conclusion, the Senate adj.

HOUSE.—The House went into Committee of the Whole on the bill to establish an auxiliary guard for the protection of life and property in Washington. The bill was discussed till 1 o'clock, when, on motion of Mr. Montgomery, of Pa., the Committee rose, and the House took up the Kansas bill.

A message from the Senate, insisting on its disagreement, and asking for a Committee of Conference, was read.

Mr. Montgomery moved that the House insist on its adherence, and demanded the previous question.

Mr. English, of Indiana, inquired whether, if the Committee of Conference be ordered by the House, parliamentary laws and practice of committee, be composed of gentlemen representing the majority of the House or a majority of those in favor of the House bill.

Mr. Stanton, of Ohio, said that if it was not out of order, he would object to the question because it would provoke interrogatories on the other side.

Mr. English, of Indiana, gave notice that if the motion before the House, was voted down, he would move for a Committee of Conference.

The House voted on a second demand for the previous question, with the following result; yeas, 107; nays, 107. The Speaker voted in negative; question lost.

Mr. English, that he might not be misunderstood, said that he was opposed to the Senate bill in its present shape; but notwithstanding this, he was willing to hear what the Senate had to say, and was in favor of the appointment of a Committee of Conference. He could not see that any harm would result from it, and therefore he moved that the House agree to a Committee of Conference on the subject matter of the disagreeing votes, and that three managers be appointed on the part of the House. On this proposition he called for the previous question.

Washburne, of Me., raised the question that it was not in order for Mr. English to make that motion. The House has adhered, and until it reconsiders that action, it was not in order to make that motion.

The Speaker overruled the point of order.

Mr. Garnett, of Va., wished to make an explanation of his vote. Objections made.

Mr. English repeated that he had made the motion in accordance with general usage in all parliamentary bodies.

The demand for the previous question was seconded, when the House proceeded to vote on Mr. English's motion for a committee of conference. The vote stood—yeas, 108, nays—108; a tie; Duchman then voted in the affirmative, so Mr. English's proposition was agreed to.

The announcement of the vote was greeted with applause in the galleries.

The Speaker directed the door-keeper and his assistants to remove those persons who had so far forgotten themselves as to cause disturbance. Mr. Hane's hoped the chair would first make an example of those on the floor of the House who clapped their hands.

The Speaker said he was not aware that any disturbance had occurred among the members. He had no right to order the Hall to be cleaned but the House itself should take such action against such members as the gent. from Illinois might point out.

The Speaker subsequently, in response to the request of Mr. Curtiss and others, revoked his order, expressing at the same time, a hope that the disorder would not be repeated, and the example would not be set by gentlemen on the floor. Those who came here to listen to debates should not abuse their privileges, and violate the rules of decorum and order.

Mr. Grow remarked that it was not a privilege but a right for persons to occupy the galleries.

At the instance of Mr. English a motion to reconsider the vote above taken was tabled, when the Douse again went into Committee of the Whole on the Police bill. After some debate the Committee rose and the House adjourned.

To amend charter of Wisconsin Bridge Co.; to legalize map of Dodgeville; to authorize town of Centre to build a bridge.

The Agricultural College bill was then taken up, and pending the question of ordering it to a third reading, the Senate adjourned to 7½ A. M.

Washington Items.

NEW YORK, April 14.

Washington correspondence:—Speaker Orr has pledged himself, in case the opposition consent to a committee, to appoint Messrs. Stephens, Montgomery, and some leading Republican.

It has transpired that the anti Lecompton democrats held a caucus last week, and decided to vote for a committee of conference if asked for by the Senate, but were against the House asking for one.

Gen. Cass' note to Lord Napier, relative to the slave trade, will be communicated to the Senate to-morrow as an Executive document. The General communicates to the British Minister the views of our government at length commenting with severity upon the Coolie trade, and the laws of England thereto, and also animadverting on the African apprentice system of France. He regrets the abuse of the American flag by vessels not entitled to claim that protection, but does not admit that our government is responsible for this abuse to a greater extent than it has employed, in its efforts to prevent it. He also refuses to acknowledge that we are bound to add another vessel to our African squadron; and in reviewing the treaty stipulations, contends that we have fully complied with them in letter and spirit.

Private advices from Nicaragua state that Gen. Jurez is in arms against the Government of Martinez, and that affairs in that country are in great confusion.

The steamer San Cadass had been sunk by the Nicaraguans, the Costa Rica guard having been driven off.

High Water South.

ST. LOUIS, April 14.

Frightful consequences are likely to ensue along the lower Mississippi, which is now higher in some places than ever before known. By the accession of combined floods now coming from the upper rivers, the Mississippi is rising from St. Paul down. The Missouri and Illinois are both high and are still rising. All their tributaries are at flood height. The high water is occasioned by heavy rains extending throughout the whole western and north-western country, and not by the usual spring rise. Should that follow before the present flood subsides, the whole lower country will doubtless be inundated.

Fire at Cincinnati.

CINCINNATI, April 14.

The block of buildings on the corner of Western Row and Canal streets, occupied as coffee house, Wood's feed store, William Fisher, mahogany and chair store, and others, were destroyed by fire last night. Roots & Co., adjoining, were considerably damaged. Loss $35,000; partially insured. Portions of the buildings were occupied by a large number of poor families, who are rendered houseless. A fireman was fatally injured by a falling roof. Roots & Co.'s building was owned by Nicholas Longworthy; insurance unascertained.

The Lecompton Constitution.

WASHINGTON, April 14.

The Lecomptonites freely calculate on a joint arrangement to admit Kansas under the Lecompton Constitution; if not in the precise words of the Senate bill, with such modifications as will not sacrifice the principle of that measure.

The President has determined to take the volunteer regiments from the Western States.

The Little Murder Case.

ROCHESTER, April 14.

At six o'clock this evening the panel of 48 was exhausted, and only three jurymen had been accepted in the Little murder case. A new panel will be ordered immediately.

The Republicans and Lecompton.

The *News* makes a very elaborate attempt to take the sting out of the defeat which the Buchanan Administration have just encountered on the Kansas question, by charging that the Republicans, in voting for the Montgomery Amendment, were guilty of gross inconsistency. We do not in the least object to the *News* deriving what consolation it can from this idea; but there is one *fact*, connected with the decisive vote on Lecompton, which must out-weigh all the *News'* speculations. The "National Democrats," as they call themselves, North and South, voted in a solid body *against* the Montgomery Amendment. Now, it is obvious that if, as the *News* insists, the Republicans abandoned their principles in voting *for* this measure, the Democrats must have deserted theirs in voting *against* it.—The people understand, moreover, that every vote for the Montgomery amendment was a nail in the coffin of Lecompton; and the wailings of the *Union*, *News* and other pro-slavery organs, afford pleasant proof that these nails were driven home.

But the defeat of the Lecompton Villainy is not the only, or least important result of the action of the House of Representatives. Other and important consequences are to follow. The exposure and overthrow of the Federal plot to make Kansas a Slave State, is a death blow to the Buchanan Administration, and to the *bogus* "Democratic" party. The *News* is painfully aware of this fact, and strives to divert attention from the feuds in its own political family, by inventing tales of dissentions among the Republicans:

"It is said that at least one-half of the Republicans of Ohio are deeply incensed at the conduct of the Republicans in Congress with regard to this Kansas question. And a similar feeling pervades a great number of the Republicans in Wisconsin."

There is not a word of truth in either averment. The Republicans of Wisconsin, as of Ohio, are unanimous and enthusiastic in their approval of the course pursued by their Representatives in Congress on the Kansas question, and in rejoicing over the defeat of Lecompton and the downfall of the Buchanan Administration. And their sentiments are shared by thousands and tens of thousands of true Democrats, who, unseduced by Federal patronage and unawed by Federal power, remain true to the fundamental principle of our Republic, that "the People shall rule."

A Suspicious Looking Lottery.

Some of the Virginia and Washington newspapers contain a glowing advertisement, headed "WHO WANTS A FARM for FIVE DOLLARS?" and inviting the credulous public to "read the following." What follows is an announcement of the "American Homestead Land Company, capital stock 100,000 acres in the State of Wisconsin." This flourishing Company professes to own and propose to "distribute" the aforesaid 100,000 acres, which are certified to be "among the best farming lands in the State, ranging in value from $5,00 to $25,00 per acre." The "shares" are only "five dollars each," and the prizes run from one five thousand acre tract, down to five hundred forty acre tracts. The "Trustees" of this tempting Lottery, are ex-Gov. BARSTOW, at Janesville, and ALEXANDER SPAULDING, New York. The Secretary of the Association, is THOMAS J. NEARY, Washington, to whom all "orders" must be addressed. "Thirty one members of Congress," one from each State, are to preside over the "distribution" of the lands, or, in fitter phrase, the drawing of the Lottery. The present Governor, and all the ex-Governors of Wisconsin, are published as "standing references." The Madison *Journal*, however, informs us that Gov. RANDALL is a stranger to the existence of this Mammoth Land Company, and never authorized the use of his name in that connection. Doubtless the same is true of the other gentlemen named in the advertisement. The whole thing looks like a clever scheme, to make two or three hundred thousand dollars out of the unsuspecting public, by beguiling them into a Wild Land Lottery.

☞A decided majority of the Common Council were elected on the People's ticket, in opposition to the regular party nominees.—*Sentinel.*

True as preaching. And the Republicans far and near have published the defeat of the "regular party nominees" as a Republican triumph. But we observe they are not doing that as much as they were. The election of Mr. Hadley, a prominent Democrat, to the Presidency of the Council, suddenly put on the affair a new complexion.—*News, of yesterday.*

There is rather more than the usual average of mis-statements in the above paragraph from the *News*. The Republicans have never pretended to claim the result of our Charter election as a "Republican triumph." Mr. Hadley has not been elected President of the Council.—That honor was conferred upon Ald. Phelps, a "prominent" Republican. And no doubt Mr. Hadley's election to the subordinate post of President of the Board of Councillors was in consideration of his faithful and efficient labors, on election day, in support of the First Ward People's ticket, and in opposition to the regular Democratic candidates. Mr. Hadley is one of the "*bolters*" whom the *News* has sworn to "mark" and "remember."

A RAIL ROAD FORECLOSED.—The Madison *Argus* of Tuesday last contains the following item:

WAT. & MAD. R. R.—We learn that the bondholders of this road, having foreclosed, have bid in the road—the principal party being Russell Sage, of Troy New York. They, therefore, became the owners of the road, and we further learn, that they will immediately take hold of it and complete it to this place.

PROGRESS.—The progress of a Lecompton Democrat, who has been refused a Post Office, is constant and rapid. The *Argus* of last evening takes decided ground in favor of the Crittenden substitute. What will "Old Buck" say, when he hears of this defection? He will probably tell his next visitor from Wisconsin, that the "high opinion" he had formed of "Mr. Cal-kins" (the *a* as in *fat* and the *l* prominent, the Presidential pronunciation) has undergone a change in consequence of his vacillating course on the pet measure of the Administration, since the Madison Post Office was given to Jones.—*Madison Journal.*

The President has made some remarkable converts in this way. The *Argus* editor, for instance, originally Lecompton, is fast becoming Anti-Lecompton, under the melancholy dispensation of losing a post office; while the editor of the *News*, originally Anti-Lecompton, has become exceeding zealous for that measure, in the hope of keeping his Post Office. Should he, too, chance to forfeit the Presidential favor, we have strong hopes of again seeing the *News* make sturdy fight against the Villainy.!

RAIL ROAD FARM MORTGAGES.—A stringent bill, to compel Rail Road Companies to pay interest on their Farm Mortgages, introduced some time since by Mr. Cook, of Sheboygan, was warmly debated in the Senate, on Tuesday last. The bill was ably sustained by Messrs. Smith, Bennett and Simpson; and earnestly opposed by Messrs. Chase, Giles, Boyd and Tucker. It was ultimately referred to a Select Committee for revision and amendment.

Exorbitant Fees.

For the Sentinel.

MR. EDITOR.—While *reform* is the order of the day, (and very much needed,) and the Legislature having *reformed* our City Charter, by passing the Amendments demanded by the "Tax payers," would it not be well for the business men of the City and County, still to demand a further reform. We refer to the exorbitant fees demanded by Law, by the Sheriff and Clerk of our Circuit and County Courts.

It is said, by some of the members of the legal profession, that the fees of the Sheriff for the last year, amount in the aggregate, to the enormous sum of thirty or forty thousand dollars.—And that the fees of the Clerk of the Courts, amount to twelve or fifteen thousand, and some estimate the amount still higher, under the present fee bill. And this money comes out of the pockets of all who happen to be so unfortunate as to be forced into Court as a suitor. The law as it now stands, seems to be partial, giving to the officers of Court, such an extravagant fee, and at the same time compelling, even the successful party, to pay his own lawyer. It is asked, why it is that the Clerk of the Court, should be allowed from five to seven dollars, for merely filing a judgment roll, and entering a judgment by default, the work of only ten or fifteen minutes. And why is it, that his fees amount to from ten to twenty dollars, on the trial of a suit in Court, while at the same time he is receiving three dollars per day out of the Treasury, for every day he is thus engaged in Court? These are questions that every business man is interested in, and would like to have answered. We believe, that all officers and public servants, should receive a remunerative fee or salary for their services, but we do not believe in a partial law, giving to a few men, five or ten times, what the services performed by them are worth, and stinting others to an amount comparitively picayunish. Look at the Salaries of the Judges of the Supreme and Circuit Courts, and the State officers. Is there any reason why a few officers located in a city like this, should receive five or ten times the value of their services, while other more responsible officers, (above named) only a tithe more than their expenses, yet they do not complain.

It appears by the statute of New York, that all a clerk of the Court gets for entering a judgment on default, is fifty cents, and for a trial fee one dollar. And yet we are told that in populous counties, the office is very much sought after. Why, then, should the clerk of the Courts of Milwaukee County, not only ask, but demand, a fee of from five to seven dollars for doing only what costs fifty cents in New York, and other eastern States; and why should he demand from ten to twenty dollars for his services on a trial that only costs one dollar in the State of New York.

There are a thousand gentlemen in the City of Milwaukee, equally as competent as the present clerk, that would be glad to assume all the responsibilities of the office and perform its duties for two thousand dollars a year, over and above clerk hire.

In this County, where so much law business is done, the Legislature should pass a special act making the office of the Clerk of the Court a salaried one. And the Sheriff, also, if it can be done—fixing in the bill an amount of fees to be paid sufficient to indemnify the County Treasury against the salary. We are glad to see, by the proceedings of the Legislature, that petitions have been sent in, and a bill has been presented to make the office of the Clerk of the Court of Milwaukee County a salaried one; and, while the Legislature are engaged on the subject of reform, let them do one more good act for the benefit of the citizens of Milwaukee before they adjourn, and the people will again rejoice. They have been filched and robbed long enough.

MILWAUKEE, April 14th. VINDEX.

LA CROSSE AND MILWAUKEE R. R.—ANOTHER CHANGE.—The N. Y. *Express* of Saturday last, contains the following information in regard to the recent change in the Direction of the La Crosse and Milwaukee R. R. Company:

A meeting of the stockholders of the La Crosse & Milwaukee Railroad Co. was held at Albany yesterday, at which important changes were made in the direction. Hon. Stephen Clark has resigned the Presidency, his private business requiring his whole attention, as will be seen by his letter:

[COPY.]

ALBANY, April 9, '58.

To the Board of Directors of the La Crosse & Milwaukee R. R. Co.

GENTLEMEN:—I respectfully tender you my resignation of the office of President and Director of the La Crosse & Milwaukee R. R. Co.—The controlling reason which influences my action in this respect is, that a due attention to my private affairs renders it quite impossible for me to give proper attention to the concerns of the Company. I am satisfied from my experience since I became acquainted with the Company, that the effort to place its affairs in a reasonably safe and secure position, will require much more time and labor than it is possible for me to bestow without entirely neglecting all my private interests. It is mainly for this reason that I regard it alike due to the Company and myself that I retire from the direction and its presidency. I am happy to believe that my connection with the road has not been wholly unproductive of results favorable to the interests of stockholders and credit to us. And surrendering the trust that I have temporarily held, it is a source of gratification that the completion of the road to La Crosse is placed beyond reasonab e contingency.

With my best wishes for the success of the road, I remain, gentlemen,

Your ob't se'vt.,
STEPHEN CLARK.

Mr. Clark has been succeded by the Hon. N. P. Stanton, a name well known. E. H. Goodrich, of Milwaukee, has resigned as a Director, and Jacob H. Shear, of Albany, elected in his place. A. C. Garrison, of the Market Bank of Troy, has also been elected to the vacancy caused by the resignation of Mr. Kilbourn. The Directors of the Company are now concentrated at Albany. At the meeting yesterday there was a large attendance of bondholders, to whom a statement was made of the condition of affairs. The iron is all laid to Tomah, and the cars will run next week. A very large force has been put on the Western section, and as the money has all been provided, the river will be reached during this year.

No official notice has been given the Company of the change of time in holding the annual election. A meeting of stockholders will be held at Albany in a few days, which will be adjourned to New York, to consult with stock and stockholders here and agree upon a ticket for the deferred election, should the Company receive notice of any change in the day, and agree upon the names of parties to whom proxies shall be sent. With good management, such as the present Board are capable of securing to the road, its mortgage bonds of all kinds must be certain of revenue, and with the growth of the business of the road there will remain a profit for the stock.

Mr. JACKSON HADLEY, who is, we believe, the sole survivor of the old Board, left here on Monday, for Albany, to attend the meeting indicated above. It must be gratifying to the friends of this important road to know that its completion to the Mississippi, within the present year, is a fixed fact.

Our Next County Board.

The several towns in our County, return the following named gentlemen composing the next Board of Supervisors for Waukesha County.—Those marked with a star*, were members of the last board.

Brookfield.—S. Faulkner, rep.
Delafield.—Albert Alden,* rep.
Eagle.—J. C. Snover, dem.
Genesee.—Thos. Sugden, rep.
Lisbon.—Geo. Cairncross,* rep.
Menomonee.— —— Roe, dem.
Merton.—Francis McCormick, dem.
Mukwonago—A. E. Elmore,* dem.
Muskego.—Matthew Elliott, dem.
New Berlin.—Benjamin Hunkins, ind.
Oconomowoc.—Daniel Cottrell, rep.
Ottawa.—T. C. Dousman, ind
Pewaukee.—Geo. Barker, rep.
Summit.—Orson Reed,* dem.
Vernon—Perry Craig, rep.
Waukesha—Geo. C. Pratt,* dem.

The Board will stand then, according to our advices,

Republicans,	7
Democrats,	7
Independent,	2
Total,	16.

This is a respectable gain upon last year when there were only *four* Republicans in the Board. We have a clear Republican majority in this town; but our candidate failed in his election, by the division in the Republican ranks here. The Supervisors elect are so far as we know them, competent men.—*Waukesha Republican.*

Another Veto.

State of Wisconsin, Executive Office. Madison, March 31, 1858.

To the Hon. the Senate.

A bill, entitled "An act to release the claim of the State of Wisconsin to certain lands therein specified," has been presented to me for my approval. Under the act of Congress of A. D. 1850, the State became entitled to all the swamp and overflowed lands lying within the several counties of this State, which had not been sold. The right of the State to those lands became fixed by that act, and the right of the State to the evidence of its title, in the shape of a patent from the general government, as far as the swamp and overflowed lands were properly designated, became also fixed by that act and by the regulations of the general land office. There is a serious objection to this bill, so far as it relates to swamp and overflowed lands. This bill assumes that the State holds, or did hold, a right to, or a claim upon the swamp and overflowed lands named in the act, prior to the issue of a patent to this State, for those lands or any part of the same. That assumption is an admission that a proper construction of the act of Congress of 1850, conferred that right upon the State, and that, subject to that act, the general government could not dispose of those lands and give a clear title, except in cases where the right or claim of the State was released. The right of the State to those lands is founded in the act of Congress of 1850, and the patent issues to the State to perfect the evidence of its title to the lands listed or enumerated as swamp lands.—Whether all the swamp and overflowed lands in the State have been enumerated or listed, or not, they equally belong to this State, and the State cannot be divested of its right, except by some act of its own, authorizing it.

With this view the Legislature of this State has passed a bill authorizing pre-emptions upon swamp and overflowed lands, by men who desired them for actual settlement and cultivation, under certain formalities and restrictions, and upon conditions named in the laws. Under the law granting the right of pre-emption, in very numerous instances, parties have proved their pre-emptions, entered upon the lands, and are cultivating, building upon, and improving them for homes. The general government, after the act of 1850, had no right to dispose of, or permit to be entered at the land offices in this State, or at any of them, a single foot of swamp or overflowed lands. It had no right to sell, and could not convey what did not belong to it. In cases where the general government has, through its land offices in this State, sold to purchasers, or permitted to be entered, any of those swamp and overflowed lands, it is under obligation to pay back to the purchaser his money thus wrongfully taken, or to permit him to select lands which the general government had a right to sell, in its stead.

As a matter of comity and accomodation, where no pre-emption had been made, by actual settlers, under the laws of this State, and where no injury might accrue to any innocent parties, there might be no great objection to such releases as are included within the intention of this act. But the State is under a high obligation to protect settlers and claimants upon his own lands, where claims and settlements have been, in good faith, made under its own laws, and where its laws invited, and held out inducements to such claims and settlements. Large improvements have been made, and large amounts of money expended upon some of these lands, under the protection of the laws of this State. In some of the land offices of the general government, in this State, the most mischievous policy has been pursued, in permitting lands to be entered that were known to be swamp and overflowed lands within the meaning of the act of Congress. And herein is the opportunity offered for the speculator, through designing agents, taking advantage of the blindness—assumed blindness—of land officers to enter swamp and overflowed lands, even when settled upon and improved, under the laws of this State, in good faith. The man who makes his pre-emption upon lands to which this State has a right, and over which it has or ought to have control, where the pre-emption is made in good faith, and has been invited by our laws, is first entitled to protection. The man who, for mere purposes of speculation, enters, at a government land office, any of the swamp and overflowed lands belonging to this State, knowing them to be such, is entitled to no sympathy, particularly, when those same lands may have been claimed and approved under the laws of this State.

On the score of political economy, as well as on the score of morality and justice, it is better that the purchaser at the government land offices seek his redress of the U. S. Government, by either reclaiming his money, where he has bought swamp and overflowed lands which the Government had no right to sell, and to which it could give no title without a release from this State, or by entering other land in lieu of that erroneously or wrongfully purchased, rather than that the settler and claimant under the laws of this State, of swamp and overflowed lands, should be turned empty away from his claimed land, and lose the value of his labor and improvements, or come knocking at the doors of our own legislative halls for redress, embarrassing the State and the claimant by an uncertain liability on the one hand, and a certainty of loss on the other.—A resort to legislation in cases of this kind is a doubtful expediency, in any event, and should not be countenanced, except, in cases of the clearest necessity, and in such cases the law should never be permitted to work oppression to actual settlers, and honest claimants, to favor men who buy the lands to sell again, and not to cultivate or live upon.

In my judgment the Legislature should not realize, or compel the Governor to convey, indiscriminately, swamp and overflowed lands, belonging to this State, although the patent may not have issued at the U. S. Land Office, but if any law is passed at all, including swamp and overflowed lands, for any such purpose, such law should except cases, or give the Governor authority to except cases, where pre-emptions are made in good faith, and proved under the laws of this State. Entertaining those views, and holding those objections, I must return this bill to the Senate, where it originated, without my approval.

ALEX. W. RANDALL.

Corruption in High Places.

From the N. Y. Tribune.

We have taken occasion to expose one or two of the peculiar financial transactions in which Mr. Buchanan's Secretary of War is apparently implicated with the Hon. John C. Mather and the Hon. Richard Schell, Senators of New York, to say nothing of other patriots, in the business of making or taking money from the Federal Treasury. Among these transactions was the sale of the site of Fort Snelling, and the purchase of another fort site opposite Throgg's Neck, on the East River, both of which are now being investigated by the House of Representatives. A third operation of the sort is now disclosed in *The Herald*, and, we trust, will also be subjected to official inquiry. It seems that the Government had been negotiating for a tract of land at New Bedford, which contained the only suitable site for a fort to defend that place. A military engineer had examined the land, and had agreed with the owner on the terms to be paid by the Government, namely, $1,000 an acre for thirty acres. This was reported at Washington, when Mr. Mather and Mr. Schell at once appeared at New Bedford, and conditionally bought, at $1,000 an acre, sixty acres, including the thirty acres fixed upon by the engineer, paying 3½ per cent down. The purchase was to be binding on them in case they could sell it to the Government, and not otherwise. They then proposed to their friend, the Secretary of War, to sell him the tract for $108,000, thus making for the partners the snug and modest little sum of $48,000. It was, however, thought more prudent to leave the price to referees, and by this means the Government finally had to pay $78,000 for the tract, which at the time was assessed on the tax books of New Bedford at some $12,000 only.

That Mr. Floyd got any portion of the money made in this case is, of course, not affirmed, any more than that he shared in the gains at Fort Snelling and Willett's Point. But the circumstances are all in the highest degree suspicious. How did Mather and Schell know that the Government were about to buy this piece of land, unless the Secretary told them? And did the Secretary tell them from pure friendship, or because he was to participate in any booty they might carry off? The case certainly needs a severe scrutiny by an authority competent to bring out the truth. We trust, for the honor of human nature, that Mr. Floyd may come clean out of these affairs; but it is certain that such corruption never existed in this country as has been set on foot and fostered under the administration of Mr. Buchanan.

Death of Col. Benton.

WASHINGTON, April 10.

Col. Benton's spirit took its flight gently and tranquilly this morning at about thirty minutes past seven o'clock. He was conscious and calm. He was 76 years and 27 days old when he died.

SECOND DISPATCH.

The supposed time of Mr. Benton's death was 7:35, though he glided off so gently that it may have been a few minutes earlier. Last evening when Mr. Appleton called, he was too exhausted to converse, and merely signified "to-morrow." At times through the night he was seized with spasmodic pains of great violence, otherwise he rested gently. His last connected words were about two this morning, when Jacob, his son-in-law, who was sitting up, asked how he felt, to which he faintly whispered, "Comfortable and content."

About 4 o'clock this morning, Jones, another son in-law, relieved Jacob, and in an hour afterward his children and family were at the bedside till the final summons. A few minutes before his death the nurse applied ice to his lips, which were consciously moved for the accepted refreshment.

The funeral service will be performed on Monday, probably, when the body will be conveyed to St. Louis for interment, with his mother, wife and kindred.

His sustenance for three weeks past was hardly sufficient for an infant, and it may be that his life was prolonged by the effort of the will only. His constitution was sound in every respect, and the disease which precipitated his death was strictly local, being cancer of the rectum.

Later from Kansas.

Arrival of the news of the defeat of Lecompton—Public Meetings, bonfires, torch light processions, universal rejoicing.

WYANDOTTE, K. T., April 7, 1858.

☞The glorious news of the defeat of the Lecompton swindle was received in Lawrence a few minutes before I took passage for this place, on Tuesday morning, the 6th inst. The gladsome intelligence was brought up the river from St. Louis on the Platte Valley steamer, and was first communicated to the people of Kansas at this point, about 4:30 P. M., on Monday. An express started for Lawrence during the night, and reached there about 7:30 A. M. The announcement came upon the people like a clap of thunder from a clear sky, as they had generally despaired of its defeat. A crowd came rushing to the Morrow House to learn the particulars, as the news quickly spread through the place.—Five hundred excited men were soon collected—cheer upon cheer went up to the vault of Heaven. Soon Col. Eldridge and a squad of the "boys" started for the Armory and brought out the twelve-pounder, called the "Kickapoo baby," which the Leavenworth boys rescued last fall from the ruffians of that den. The stars and stripes next floated from the flag staff on the Commercial House, and as the stage left the great Abolition head-quarters of Kansas, the twelve pound Kickapoo baby was proclaiming to the people of Douglas and adjoining counties that Lecompton was *dead!*

The "baby's" voice first announced it to Gov. Denver, at Lecompton, twelve miles up the Kansas river. About noon we met the Wyandott stage going to Lawrence. The drivers cheered, then the passengers exchanged shouts and congratulations. When I reached Wyandott at dark, the people had not yet got over the excitement of the afternoon and night before. The Platte Valley fired a gun as the boat neared the landing. The people were on the alert, and rushed down the hill to the river. As she approached, a passenger shouted out from the hurricane deck at the top of his voice, "The Lecompton bill is killed!" Huzza! huzza! rang out loud, clear and spontaneous, in response.—As the news went over the town, every Free State man took up the shout, and yelled till he could yell no more from sheer exhaustion! After the people had exchanged congratulations, the brass six-pounder was brought out and sent the echoes over the surrounding hills and far into Missouri, and along the valley of the river.

At night-fall the people assembled in mass meeting. Large bonfires were built; speeches of a patriotic character were made by Messrs. Roberts, Chestnut and others; the crowd sang the "Star Spangled Banner," and the band played "Hail Columbia." There were also deep sepulchral groans for old Buck, and his "naked" Lecompton deformity, which he pledged himself to put through in ninety days! Next followed a torch-light procession, in which gleaming flambeaux were swung and brandished by every Free State male over six years of age in Wyandott. Fire balls and rockets were thrown blazing through the air, and it was not until midnight that the jubilations ceased, and the people retired to rest. I forgot to say that "lager" suffered *some*, considering the "stuid" temperate character of the people.

I have seen a gentleman from Leavenworth city who describes to me the scene when the news reached there, abo t 9 P. M., on Monday night. Similar outbursts were manifested there as here, but on a scale of greater magnitude, as it is a place of 6,000 inhabitants. The people shouted themselves hoarse; speeches were delivered by John C. Vaughan, formerly of the Chicago *Tribune*, by Mayor Adams, Thos. Ewing, Jr., and others. The band played—cannon were fired—bonfires built—fire balls thrown, and when the crowd adjourned, it was resolved to have the greatest and longest torch-light procession the next night ever seen in Kansas. One hundred and twenty guns were to be fired in honor of the 120 members who killed Lecompton, and three extra—one for Crittenden, one for Douglas, and one for Seward, the great leaders of the Coalition against the doughfaces and nigger-breeders. A magnificent supper was to be given at the Planter's House, at which champagne and toasts, lager and patriotism, would mingle and effervesce. (The German element is strong at Leavenworth.) A good time generally was anticipated.

Couriers were dispatched from Wyandott, Leavenworth and Lawrence, to spread the glad tidings over the whole inhabited portions of the Territory. No man who has not been in Kansas and mixed freely with the people, cannot imagine or realize the depth and bitterness of feeling in the hearts of the people against the odious and tyrannical Lecompton swindle—a bitterness and loathing which rests also upon its supporters in the White House, and the halls of Congress. In the present state of feeling it will not be healthy for John Calhoun or the other "refugees" in Buchanan's bosom, at the Capitol, to return here. If they set foot on Kansas soil they will probably be welcomed with a greeting such as was extended to the bow-boys and tories of the Revolution, after the close of that war.

In a few weeks the Leavenworth Constitution will be ratified by twelve to fifteen thousand majority, and a State Government elected under it. A special messenger will lay it before Congress, on or about the 1st of June, and ask admission into the Union under it. Gen. Lane and Gov. Robinson will most likely be the U. S. Senators, and may have their credentials before the 4th of July—if Congress be in session at that time.—On that day the Constitution will be submitted, a vote of the people will be taken "*indicating*" to the Legislature the popular choice for Senators. Admitted into the Union under the Leavenworth Constitution, the people's choice will prevail, agitation of the Slavery question will measurably cease, peace will be restored, and prosperity and happiness will bless this vast and beautiful Territory—then a Sovereign State. Why will the Administration keep the question longer open? Have they not had enough of Slavery agitation? Are they anxious for a "*Republican*" succession?—*Cor. Chicago Tribune.*

AGENTS WANTED.

THE GREAT GIFT SALE of Gold Pencils, by A. H. Wilford & Co., Washington City, D. C., offers an excellent chance to Agents to make a few dollars with little or no expense. We are manufacturing and selling beautiful solid Gold Pencils for $5 each, (the actual retail price) and giving each purchaser a gift, worth from two dollars up to two hundred dollars. Each purchaser of a Pencil is sure of a $2 gift at least, or he may be worth $5, $10, $15, $20, $30, $50, $75, $100, or $200. The prizes are distributed to purchasers by a simple plan of drawing, and as soon as the name of a purchaser is received with the $5, his Pencil and Gift are put in a small box, in a safe manner, and sent to the owner by mail, post paid. Our plan gives perfect satisfaction, as each purchaser can sell or trade his Pencil for all it cost him, and retain the gift *gratis*.

We want a good agent in every part of the country, to solicit purchasers, and a good agent to be successful, should first have a Pencil and Prize to exhibit. We allow an agent one dollar each for each purchaser he gets, which amount he may retain out of the $5; and the first person becoming a purchaser at any post office, will receive the agency for that neighborhood.

A NEW AND IMPORTANT IDEA.

We propose to let any person know what gift he will draw, before requiring any money to be sent. Any person desiring one of our massive Gold Pencils, can first send us their name and address, and we will make their drawing and inform them by return mail what prize they drew, and they can have the privilege of sending for it if they choose. We cannot, however, give this privilege but once to any person, and we make this offer to establish Agencies, and introduce our Pencils in a neighborhood. After a person becomes a purchaser and accepts the agency, we require all persons in that locality to send their $5 in advance through him. Ruch persons may rely upon it that we will promptly forward their Pencil and Prize, whatever it may be, by return mail, on receipt of the $5. Full particulars, with a plan of distribution, will be sent to each person making application for a drawing. Address

SANFORD'S LIVER INVIGORATOR.

ONE DOLLAR WILL BUY ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public, namely: DR. SANFORD'S INVIGORATOR, or LIVER REMEDY, that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel, without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in the effects. It has rarely or failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver, is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feelings after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now, what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly, that we are advising a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

GAS REGULATORS.

I WOULD call the attention of those who have large gas bills to pay, to look at this valuable invention of W. R. Sterling's, a Patent Pneumatic Balance. It will save you in your bills from 25 to 40 per cent. It is one of the most perfect Regulators that has been patented. Should the pressure of Gas be so great as to produce a perceptible blowing from the burners of superfluous gas, by applying this balance the lights are at once brought to their most brilliant condition, and made steady, which is a great desideratum of gas. The Regulator is now used in many stores of the city. Call on the undersigned, No. 2 Spring street, at Col. R. White's Carving Establishment, or address box No. 1,243.

The Swamp Lands—Another Veto.

Gov. Randall has vetoed a bill which had passed both Houses of the Legislature, releasing the claim of the State, (in cases where patents have not been issued,) upon Swamp and Overflowed lands, entered as Government Lands, since the date of the Act of Congress of 1850, which donated all lands of that description to the State.

In original Government Surveys, little attention was given to making accurate returns of Swamp and overflowed Lands. Large tracts of this character, surveyed during the dry season of the year, were not noted at all. These, when ascertained by actual survey, belong to the State under the act of 1850. Much of this land is very valuable. But anterior to an actual survey by the State, thousands of acres of land have been entered at Government prices in the United States land offices.

The survey by the State, now in progress, has disclosed the fact that no less than *thirteen thousand acres* of swamp and overflowed lands belonging to the State, lying in the valley of the Wisconsin River, between Muscoda and the Mississippi River, have been entered in this manner. Much of this land is worth eight or ten times the Government price. Under the bill vetoed by the Governor, the State would release its claim upon it without any assurance of securing an equivalent from the General Government. The course of the Governor under the circumstances, seems eminently proper, and will no doubt, receive general approbation.

The innocent purchasers of these lands are doubtless anxious to perfect their titles. All reasonable facilities should be afforded them for accomplishing that object. But the State is too largely interested to sacrifice its claim by hasty and inconsiderate legislation upon the subject. A more thorough knowledge of the extent of the sacrifice involved, would, in all probability, have led to the defeat of the bill before the Legislature. When the State has effected some definite arrangement with the general Government, there will be time enough to release its claims; and in effecting such arrangement, it will stand in a much better attitude, as a party with vested rights, than as a humble suppliant for favor, dependent upon the capricious mercy of the department at Washington for justice.

In another respect this bill was manifestly unjust. In many cases men have pre-empted, swamp and overflowed lands, under the laws of the States, and settled upon them in good faith. They have expended their money and labor in improving them. This bill would annul their right, and give the land thus pre-empted and occupied by the honest settler, to the speculator who may have entered it as Government land. It was a bill detrimental both to the rights of the State and of individuals, and mainly beneficial to land speculators only. The people will thank the Governor for his veto, and heartily sustain him in every such interposition to protect them and the State against the schemes of crafty speculators.—*Madison Journal.*

The Progress and Future of the North West.

The progress of the North-Western portion of this Union has been truly wonderful. It has surpassed the dreams of the wildest and most visionary founder of the Republic. It already exercises an important influence in the affairs of the nation, and is destined to be a section of the continent wielding more strength and influence than any other. The North-west formerly included only the five States, carved from the Territory included in the Ordinance of 1787. But, this is, and should be, now extended by the States and Territories in the same latitude, and inhabited by the same kind of people beyond the Mississippi. At this time it includes also, Iowa, Minnesota and Nebraska—six States and two Territories. The latest United States census was taken in 1850; but we have the census es of Iowa, Illinois, Wisconsin and Michigan, for 1855, that of Minnesota for 1857, and data for a reasonable estimate of population in Ohio and Indiana.

We give then, the growth of population in the North west from 1800 to 1857, thus:

In 1800	50,240	In 1840	2,987,850
1810	272,324	1850	4,721,551
1820	792,719	1857	7,200,000
1830	1,460,218		

This shows that one third the entire white population of the United States, and that four fifths of this population here, came within thirty years, or the average limit of one generation.— Let us now compare the growth of the Northwest since 1820, with the growth of New England and New York on one side, and that of the original Southern States on the other, and let us see how they are likely to stand at the end of another generation:

	1820.	1857.
New England and N. Y.,	3,032,624	5,600,000
The Original South,	3,026,087	5,080,000
The North West,	792,719	7,200,000

These figures speak louder than all the boasts of local patriotism, or the rhodomontade of politicians. In the last thirty-seven years, the old South has increased 67 per cent, the North proper 85 per cent, and the North-west 800 per cent! But it may be said that the comparison should have been made as to the South-west, where immense territories and fertile soil give them a fair field for rapid growth. Well, let us make that comparison. These States are Alabama, Mississippi, Louisiana, Texas, Kentucky, Tennessee, Missouri and Arkansas, about the same number of States with the other sections, but a much greater extent of territory, and larger rivers. The comparison stands thus:

South west in 1820,	1,424,665
South west in 1857,	5,947,000
Increase,	315 per ct.

We see then, that with this much greater territory, milder climate and greater rivers, the South west has not increased at one-half the rate of the North west.

In one word, we see the growth of the North west increase at a more rapid ratio than any part of the Union; or, we imagine, than any portion of the globe.—*Detroit Adv.*

LARGEST DIAMOND IN THE WORLD.—Mr. G. P. Matthews of this State claims to have the largest diamond in the world. It is about an inch and a half in diameter, and nearly and inch in thickness. It is surprisingly brilliant, particularly by gas light. Its estimated value is $2,000,000.— It was found by the father of its present possessor in the gold mines of Buckingham County, Va., about seventy years since. It has remained in the rough state ever since, until a few weeks ago, when Mr. M., being satisfied by every test that it was in reality a diamond, took it to New York and had it dressed. The precious gem weighs 144 carats. The Kohinoor, if we remember, weights but 100 carats. [Wheeling (Va.,) Times, 24th.

We learn from *The Kanawha Republican* that Mr. Gay P. Matthews, of that county, has deposited his great Virginia diamond, estimated to be worth not less than $2,000,000, in the bank at Charleston, for the inspection of the curious.

WOOD'S HAIR RESTORATIVE.—We have never known any other medicine to win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used it ourselves, having had no occasion, as our "crown of glory" not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it to fail in restoring the hair to its original color. We advise such as are becoming premature gray, to give the "Restorative" a trial.—*Chester (Ill.) Herald.*

MEDICAL.

HEALTH OF AMERICAN WOMEN.

WE have given place in the columns of our paper to several letters from Dr. Bridge, Secretary of the GRAEFENBERG COMPANY, to our most eminent physicians, upon the subject of the diseases to which American Women are so liable, and we now desire to call attention to the following, which is taken from The Pittsburg Daily Gazette, a leading journal of the Western States

From the Pittsburg Daily Gazette, Feb. 17—Editorial.

"We are pleased to be able to report an event like the following, which is so complimentary to the progress of science in our own country. We are informed that the Graefenberg Company have been most liberal in disseminating their valuable remedy among those of limited means, and that Dr. Bridge spends much of his time in gratuitous consultation with the afflicted. Such men deserve the practical rewards of science and deep study, which we again congratulate them upon receiving."

"HONOR TO AMERICAN TALENT.—We learn that the prize of ten thousand roubles, offered by direction of the late Emperor Nicholas, for the discovery of a reliable remedy for the diseases which afflict women to such an extent, has been awarded to the Graefenberg Company, an institution in the United States of America, located in New York. Dr. Bridge, the physician of the establishment, who wrote the report, and who prepares the medicine. (which is called Marshall's Uterine Catholicon,) has been elected a Fellow of the Imperial College; and we understand that similar honors will be offered him here. We have seen a letter from some of our most distinguished physicians, highly complimenting his medical attainments, congratulating him on the honor he has achieved for the Graefenberg Company, and requesting some of the Catholicon for use in their practice. We could have wished that this honor had been gained by our eminent physicians who competed for the prize; but, failing in that, we had rather it would belong to our transatlantic descendants, than the distinguished French and German physicians who also endeavored, though unsuccessfully, to prove that they had a remedy which would answer the purpose.

"The diseases in question—Falling of the Womb, Whites, Deranged Menstruation—and the long train of difficult and distressing symptoms consequent upon them, have long baffled the best efforts of medical science. It is, perhaps, because of their greater frequency and intensity in America, that a successful remedy should come from there; and it is doubtless owing to Dr. Bridge's admitted superiority over all other physicians in that class of diseases, that he has been enabled to bear away the palm from all competitors in his own country."—*London Paper.*

"AMERICAN SKILL TRIUMPHANT.—A private medical establishment in New York, America, (The Graefenberg Company,) has borne away the prize offered for the proof of a successful remedy for Falling of the Womb, Whites, Disorders of Menstruation, &c., &c., though French, German and English Physicians of eminence have all contended for it. We understand that our leading physicians and medical colleges, with that magnanimity characteristic of true greatness, have ordered a quantity of the remedy—Marshall's Utherine Catholicon—which will be forwarded as soon as enough can be made to spare what we need from the great and increasing demand in the United States. The world-wide reputation now given to this Remedy by the above reward, is well deserved by its great value, as we have most abundant testimony to prove.—*French Paper.*

AFFIDAVIT.

I, AARON HACKLEY, *Recorder of the City of Utica, N. Y.*, certify that I have examined several ladies of this city, of the highest and most unexceptionable character, who testified that they had been afflicted for years with Falling of the Womb, Whites, Deranged Monthly Periods, Discharges from the Uterine Passage, and symptoms connected with them, such as loss of appetite, nervous affections, disturbed sleep, weakness in the back, loss of flesh and spirits, pain in the back and kidneys, difficulty in passing water, coldness of the extremities, trouble in the stomach and bowels, variable appetites, nausea, irritability and fretfulness, hurried respiration, palpitation of the heart, chills and flushes of heat, great anxiety, pain in the shoulders and spine, dizziness, restlessness, bloatings, fatigue in the legs, general pains and troubles, more particularly at the time of the menstrual period. In all of these cases the skill of the best physicians had been exhausted in vain. One physician, of thirty years' experience, testifies also to his knowledge of the truth of these symptoms: and he substantiates the testimony of the ladies that MARSHALL'S UTERINE CATHOLICON entirely cured them, after the failure of everything else.
AARON HACKLEY, Recorder of Utica.
The above should induce every one afflicted to try the remedy.

TO MOTHERS.

When young girls from the age of 12 to 16 years are troubled with cough, nervousness, deranged digestion, and have a pale face and various other symptoms of disease, Marshall's Uterine Catholicon will arrest the disease and restore the rosy hue of health. Many of these cases are called consumption, even by the attending physician; but experience has proved that they are not so, and that they will all recover under the influence of the Catholicon. *The seeds of consumption are undoubtedly oftenest sown at that period of life, especially when the menstrual flow is tardy in its appearance, and fatal disease may insinuate from neglect to use the Catholicon. The importance of this cannot be too strongly urged.*

Women afflicted with ordinary Uterine diseases, consumption, debility, or troubles following abortions and miscarriages, would do well to address a letter, confidentially, to Dr. Bridge, Secretary of the Graefenberg Co.

Dr. Joshua F. Bridge, the Secretary of the Graefenberg Company, is a regular physician. He has devoted his principal attention to the diseases of women and children, in which, as well as in difficult chronic diseases, he has been very successful, and attained a great reputation; and he will give his personal attention to letters from those using or desiring to use the remedy. *A detail of the symptoms will enable him to judge correctly of the case and the probability of a cure. He has supervised the preparation of the Graefenberg medicines for the last ten years, and he will personally guarantee their purity and value.*

MARSHALL'S UTERINE CATHOLICON is unhesitatingly offered as a certain remedy for all those diseases which render the lives of so many women miserable, which trouble almost every one, and from which no one is entirely exempt. Abundant and reliable testimony leaves no room to doubt this fact.

Marshall's Uterine Catholicon, (of which nearly 1,000 bottles are sold weekly,) will certainly cure falling of the Womb, Whites, Suppressed or Painful Menstruation, Bloating, Inflammations and Disease of the Kidneys or Urinary Organs, Retention or Incontinence of Urine, Heartburn, Costiveness, Nervousness, Faintings, Palpitations, Cramps, Disturbed Sleep, and all troubles, organic or sympathetic, connected with the uterine organs.

The price of Marshall's Uterine Catholicon is $1,50 per single bottle.

On the receipt of six dollars, five bottles of MARSHALL'S UTERINE CATHOLICON or proper medicine, for any case, shall be forwarded to any part of the country, free of express charges. Address

Secretary Graefenberg Co., No. 32 Park Row, N. Y.

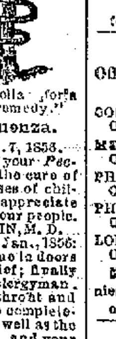
AYER'S
CHERRY PECTORAL!
FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.



BRIMFIELD, Mass., Dec. 20th, 1855.
Dr. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb. 7, 1856.
BROTHER AYER:—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR:—Your *Cherry Pectoral* is performing marvelous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKS, Merchant.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the *Cherry Pectoral* affords relief and comfort.

Consumptives do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

MARINE INTELLIGENCE.

THE BRIG MECHANIC NOT ASHORE!—We are pleased to learn that the report that the brig *Mechanic*, from Chicago had gone ashore near the South Point, is incorrect. She was reported ashore at the Custom House, and so entered upon their books, and this was substantiated by statements of several mariners of whom we enquired who said they had seen her. But they, as well as ourselves, it seems, were mistaken, for the *Mechanic* is at Buffalo, and has been there all winter. Besides, our Chicago cotemporaries say that no such vessel has left that port during the past season. There is, therefore, no grain laden vessel ashore in this vicinity. There are four vessels aground here, all of which we have previously reported. Our informant probably mistook the *Magic* for the *Mechanic*. The latter is aground near the South Point, with her hull full of water.

☞ A large fleet left here, yesterday, mostly for the lower lakes. The grain laden vessels which sailed yesterday are the schooner *G. D. Norris*, Oswego; schr. *Oxford* for same port; schr. *St. Andrew*, Capt. Hornbound to Kingston; barque *Three Bells*, Capt. Smith Montreal; schr. *Adriatic*, Capt. Hall, to Buffalo; schr. *Sacramento*, to Manitou Island; schr. *Jo Vilas*, (which had put in during the gale,) and *St. Lawrence*, to Buffalo; *Tales*, schr. *Live Oak*; brig *Mohegan*, to Collingwood; schr. *H. L. Lansing*, Cramer, to Buffalo; schr. *Fred Hill*, Cheyne, Buffalo.

IMPORTANT NEWS FROM BELOW.—Mr. Norris received a letter, yesterday, from Capt. Tate, of the schooner *Norway*. His letter was dated at Buffalo last Monday the 12th inst., and was in substance as follows:

Twelve vessels got out of Buffalo on the 11th—there were no propellers among them. On Monday, 12th, about two-thirds of the ice which has been blocking up Buffalo harbor was adrift, and going up the lake with a North East wind. The balance was aground. The schr. *Nonpareils* was in the ice about half a mile from the piers at Buffalo, and two tugs were at work at her, but they could not move her.

The schooners *Norway* and *Milwaukee Belle* were in Grand River, O. W. The *Lone Star* and *Whaling* were at anchor on the South shore of Lake Erie, waiting to take their chances to move along.

NOTICE TO MARINERS.—Lieut. Smith gives notice that a beacon light has been put up on the north pier of the new entrance to the harbor of Milwaukee, and will be exhibited for the first time on May 5th, 1858, and every night thereafter during the season of navigation. The frame is of wood and painted white. The illuminating apparatus is catadioptric of the fifth order of the system of Fresnel. The focal plane is situated 31 feet above the level of the lake, and the light should be seen from the deck of a vessel 15 feet above the water, at a distance of 10½ miles.

MICHIGAN SOUTHERN BOATS.—The Detroit *Free Press* says that it is a settled fact that these boats will not run this season, and they have, all of them, been moored in the river, at Toledo, by anchors fore and aft. A proposition was made to the Board of Directors, at their late meeting in New York, by responsible parties, to lease one or more of them and run them on their own individual account. Now that the Michigan Central has decided not to put their boats on the route, this project has been abandoned. The boats will not be out this season.

VESSELS PASSED DETROIT.—The Detroit *Free Press*, of the 13th, says:

The following is a list of the vessels which have passed this port during the past 24 hours:

Up—Schooners Middlesex, Ionia, G Rich, Pomeroy, Syracuse, Thos Kingsford, Huntress, St. Andrews, St. Paul, Acontias, brig Hoy City.

Down—Schrs. Gem, Col. Cook, Empress, bark R. G. Winslow, brig Seminole.

PROF. DE GRATH ON THE WEATHER.—Prof. De Grath wants all sufferers from the effects of the inclement weather lately, to call and procure a bottle of his pleasant Electric Oil. It cures like magic. Price 25, 50 and $1 per bottle.

Prof. De Grath feels it to be his duty to himself and to the public to state explicitly, that the article advertised for sale by Mrs. Anna E. Smith, called in her advertisements Doctor Smith, A. E. Smith, Chemist, &c., &c., is not "De Grath's Electric Oil."

Mrs. Smith's pretensions to a knowledge of the preparations of this celebrated remedy, arise from her connection with Mr. Galusha E. Smith, formerly engaged with Prof. De Grath in keeping the books and correspondence of De Grath & Co., but never instructed in the manufacture of the medicine.

The parties having neither the right nor the ability to make "De Grath's Electric Oil," and no imitation of it can produce the wonderful effects of the original, as prepared by Prof. De Grath himself, at his old and well known establishment, No. 39 South Eighth Street, below Chestnut, Philadelphia.

☞ For sale by Bosworth & Sons, and J. H. Tesch Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country. apr15d&w1w

GRAIN CLEANER & SEPARATOR

HORTON'S PATENT.

G. B. BINGHAM & BRO.,

Sole Manufacturers in Wisconsin.

THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis.

MEDICAL.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

FROM

The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimple on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, ensuing

DYSPEPSIA,

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.
